FROM THE SINGLE DESK TO THE OPERATIVE BENCH

X2 is a flexible line with different solutions.
X2 develops itself around a structure with endless connections and components.

Dal posto di lavoro singolo al bench operativo, X2 è un sistema che si presta a continue trasformazioni perché si sviluppa intorno ad una struttura dalle infinite connessioni e componenti.

THE SHARING SYSTEM OF THE STRUCTURE ALLOWS TO MULTIPLY

the tops getting different compositions
keeping the same quality and practicality.

Il sistema di condivisione della struttura consente la moltiplicazione dei piani dando vita a composizioni variabili nella forma e costanti nella qualità dell'operatività.

THE STRUCTURAL DETAILS OF THE LEG AND ITS MODULARITY

create a new concept of operative space. Different types of screens, light and simple, divide the various working areas with discretion.

La particolarità strutturale della gamba e la sua modularità genera un nuovo concetto di spazio operativo. Schermi di varie tipologie, leggeri e non invasivi, separano con discrezione le varie aree di lavoro.

X2 IS ALWAYS ABLE TO GUARANTEE SOLUTIONS OF HIGH QUALITY

Integration between the working place and screens define new sceneries and matches in spaces giving the best support to the evolution of the working needs.

X2 è sempre in grado di garantire soluzioni di qualità. L'integrazione tra il posto di lavoro e gli screen definisce nuovi scenari e si coniuga in spazi supporto ottimale all'evolversi delle esigenze lavorative.

The efficiency of X2 allows you to set up complex and functional working areas. From simple integrated elements, you can get, step by step, modular desks and also aggregated and side by side desks.

L'efficienza del sistema permette di configurare postazioni complesse e funzionali. Da semplici elementi integranti con gradualità si arriva a scrivanie modulari ed a postazioni aggregate e contrapposte.

EACH DETAIL HAS BEEN CREATED TO GUARANTEE COMFORT ON WORKING AREA

Acoustic privacy is guaranteed by linear and coloured screens
which can turn into useful modular supports.

Ogni dettaglio è creato per garantire il comfort a chi lavora.
La privacy acustica è garantita con lineari e colorati screen
che possono trasformarsi in utili supporti attrezzabili.

The complexity of requested solutions and the different needs have prompt replies even in compositions with shaped tops, an ergonomically correct way to work out complex aggregations through the use of few structural elements. La complessità delle soluzioni richieste e i diversi bisogni trovano risposte puntuali anche in soluzioni con piani sagomati, una maniera ergonomicamente corretta per realizzare aggregazioni complesse con l'utilizzo di pochi elementi strutturali.

The wide versatility of X2 is emphasized by the big possibility to combine the elements. The reception area buds from the simple overlapping of screens, tops and shelves, solving any need. L'estrema versatilità del sistema viene enfatizzata dalla vastissima possibilità compositiva degli elementi. La reception nasce dalla semplice sovrapposizione di screen, piani e mensole, risolvendo in maniera integrata qualsiasi esigenza.

The working area develops itself freely sharing the structural elements. The sharing allows you to adjust the job to the evolution of needs, integrating further additions. Il posto di lavoro si evolve liberamente condividendo gli elementi strutturali. La condivisione permette di adeguare il lavoro all'evolversi della necessità, integrando successive aggiunte.
